

The **Do It Once** System

Prompts to turn any recording into a reusable system

By Cal Hyslop

How to Use these Prompts

1. Record yourself doing the task and talking through it out loud.
2. Get the transcript — from Gemini, Loom, Zoom, or YouTube's auto-captions.
3. Choose the prompt below that matches your goal.
4. Copy the full prompt and paste it into ChatGPT, Claude, or Gemini.
5. Fill in the [brackets] with your specific details.
6. Upload your transcript into AI or paste it at the bottom where indicated.
7. Review and refine. AI is good — but it still needs you.

About the Example Style section:

Each prompt has an optional Example Style field. Paste in a sample of your own writing and the AI will match your tone. Skip it and it uses a clean, professional default — which works perfectly well.

Email / Communication Playbook Prompt

Use this when: You write the same types of emails repeatedly — updates, follow-ups, or proposals — and want a reliable structure to use instead of starting from scratch each time.

COPY & PASTE THIS PROMPT:

You are an experienced professional communication specialist who writes clear, concise, and effective workplace emails.

Turn the following transcript into a reusable email playbook.

Base your output **ONLY** on the transcript provided.
Do not invent steps or add unnecessary assumptions.

Instructions:

- Identify common scenarios or situations in the transcript
- Create reusable email structures or templates for each scenario
- Keep the tone professional, simple, and adaptable
- Avoid overly formal or robotic language
- Focus on clarity and efficiency
- Briefly explain when to use each template (so it's easy to choose the right one)

Example Style (Optional):

[Paste in a past email you're happy with so the AI can match your writing style and tone. If you skip this, it will use a clear, professional default style.]

Repeatable Task / Workflow Prompt (SOP-lite)

Use this when: You do a task on a regular basis and want to turn how you actually do it into a clear, step-by-step process — one you or someone else can follow without re-figuring it out each time.

COPY & PASTE THIS PROMPT:

You are a process optimization expert who specializes in turning real-world workflows into simple, repeatable systems.

Turn the following transcript into a clear, step-by-step workflow.

Base your output ONLY on the transcript provided.
Do not invent steps or add unnecessary assumptions.

Instructions:

- Extract the actual steps performed (not idealized steps)
- Organize them into a logical sequence
- Include numbered steps
- Add a brief explanation of why each major step matters (keep it short and practical)
- Highlight key decisions, variations, or judgment calls
- Note any important details someone might forget or overlook
- Add a short checklist version at the end for quick use
- Keep it simple and practical (avoid unnecessary detail)

Example Format (Optional):

[Paste in an existing workflow or SOP you like the look of so the AI can match your preferred format and level of detail. If you skip this, it will use a clean, numbered default format.]

Training / Handoff Document Prompt

Use this when: You need to teach someone else how to do something — a new hire, a team member, or a contractor — and want them to be able to follow the process without you walking them through it every time.

COPY & PASTE THIS PROMPT:

You are a patient trainer and instructional designer who creates clear, beginner-friendly guides.

Turn the following transcript into a training document for someone new.

Base your output **ONLY** on the transcript provided.
Do not invent steps or add unnecessary assumptions.

Instructions:

- Assume the reader has no prior knowledge
- Explain each step clearly
- Include why each step matters (briefly)
- Describe what a correct result should look like where helpful
- Highlight common mistakes or things to watch out for
- Keep explanations simple and practical (avoid unnecessary theory)
- Add a short "Quick Reference" checklist at the end

Example Format (Optional):

[Paste in an existing workflow or SOP you like the look of so the AI can match your preferred format and level of detail. If you skip this, it will use a clean, numbered default format.]

Bonus: Proposal / 04 Structured Document Prompt

Use this when: You have rough notes, a meeting transcript, or a brain dump that needs to become a clean, professional document you can confidently send to a client or stakeholder.

COPY & PASTE THIS PROMPT:

You are a professional business writer who creates clear, structured, and polished documents.

Turn the following transcript into a clean, structured document that can be reused as a proposal or deliverable.

Base your output **ONLY** on the transcript provided.
Do not invent steps or add unnecessary assumptions.

Instructions:

- Organize content into clear sections with headings
- Add a short summary section at the top explaining the purpose and outcome
- Remove unnecessary or messy language
- Keep it concise and professional
- Focus on readability and structure
- Ensure it looks presentable and ready to share with others
- Clarify any sections that may be confusing or unclear to an outside reader

Example Format (Optional):

[Paste in an existing workflow or SOP you like the look of so the AI can match your preferred format and level of detail. If you skip this, it will use a clean, numbered default format.]
